

## **COVID TRAVEL ADVISORY as on 7 December 2021**

In view of continuously evolving situation of Covid 19 related issues, travellers from Tanzania visiting India are advised to upload negative RT- PCR test report at Airsuvidha portal of Ministry of Civil Aviation at <https://www.newdelhairport.in/airsuvidha/apho-registration> before boarding and also undergo mandatory RT- PCR Test on arrival in India at the first port of entry. Those testing positive will be admitted to a facility for further treatment as per standard protocol.

Travellers who are tested negative are required to undergo home quarantine for 7 days and get re-tested again on the 8<sup>th</sup> day; if tested negative they will be asked to self-monitor their health for next 7 days.
